COUNTERFEIT ALERT – NOT A PRODUCT RECALL

October 21, 2021

Dear Valued Customer,

Recently, we have been receiving increasing reports of fraud related to the following three 3M surgical respirator models:

- 3M™ Health Care Particulate Respirator and Surgical Mask 1860;
- 3M™ Health Care Particulate Respirator and Surgical Mask 1860S; and
- 3M™ Aura™ Health Care Particulate Respirator and Surgical Mask 1870+.

These have included reports of fake/counterfeit product as well as fraudulent offers where product is offered but not delivered. We have been working with law enforcement to get counterfeit respirators off the market. These enforcement actions have resulted in the seizure of millions of counterfeit model 1860, 1860S, and 1870+ surgical respirators.

In evaluating offers for these respirators, please consider some common signs of counterfeit:

- All 3M model 1860, 1860S, and 1870+ respirators imported into the United States from any other country are likely to be counterfeit. 3M is not currently importing these respirator models into the United States. If you have been offered these models coming from outside the United States, they should be viewed as counterfeit.
- All 3M model 1860, 1860S, and 1870+ respirators exported from China/Hong Kong should be viewed as counterfeit. We do not manufacture these respirators in China/Hong Kong.
- Do not rely certification or inspection reports. All shipments of 3M model 1860, 1860S, and 1870+ respirators accompanied by a certification or inspection report are likely counterfeit.
- Beware of fraudulent emails purporting to be from “noreply@mmm.com”.
- 3M does not use a “Peru Seal” or other similar seals (examples at right). Respirators bearing these seals are likely counterfeit.

With regard to model 1860, 1860S, and 1870+ surgical respirators, we have identified counterfeit product bearing the following Lot Codes:

Please note that there may be counterfeit product with Lot Codes not listed here, and that additional Lot Codes may be added over time.

If you possess respirators bearing one of these Lot Codes, please immediately assess the way in which you acquired those products. If you purchased them from a seller that is not a 3M authorized distributor, then there is a significant risk that they are counterfeit and should not be used. We strongly recommend that 3M respirators be purchased only through 3M authorized distributors, or through existing contracting vehicles (i.e., Federal Supply Schedules), as this will provide the greatest assurance of receiving authentic product.
